NAMM President's Message

Its September 2025 and a warm welcome to NAMM TRADEX and CRAFTTEX. Thankyou for taking the time out and supporting our Association's show piece. A lot of time and effort goes into this event, and a big thankyou must go to the hard working staff at NAMM Head office who makes it happen.

Also a huge thankyou to the suppliers and exhibitors attending, for without their support our industry would not have a platform. I am looking forward to seeing the CRAFTTEX exhibits, it's always rewarding to see such talent and skill still exists within our trade. I shall be in attendance for both days of the show, so please come and say Hi.

Regards

Roy Barham

We are the largest memorial stockist in the UK with over 100 containers of stock. Having our own dedicated factory and Premium Khammam Ebony Black quarry with over 200 dedicated staff means we do not rely on third parties and due to this, we were able to serve our customers even during the pandemic. We have built an excellent reputation for reliable and fast deliveries with competitive pricing and excellent quality and service.

In June 2022, we were able to create a new record of 14 containers in a week.

We look forward to meeting you at this year's Tradex.

*The Blast Shop is unique in the sandblast supplies industry - we use the products we sell and have practical experience of all the products on our stand. As official distributors for Goldmann and ABRA sandblast we now have 2 options for automatic sandblasting. We'll be making some noise when we blast lettering with the ABRA automatic table. Also on display will be MemorialDESIGNER and our new order management software MOMS. Meet the team and catch up on all our memorial solutions on Stand 3. **SHOW OFFERS 10% off ABRA equipment ordered at the show.***

Demonstrations, Talks and Training Timetable

Thursday 4th September

The HSE aims to reduce and prevent occupational lung disease, with a particular focus on silicosis related to exposure to respirable crystalline silica. The Local Authority Circular (LAC 67/2), which expands upon the HSE's business plan, details the sector focus for inspections. Businesses that cut and shape stone are listed, with a particular mention of gravestone masonry.

NAMM asked Synergy Environmental Solutions, who specialise in workplace air quality and its assessments, to offer their expertise and guidance to NAMM members to ensure HSE compliance and the safety of all involved in working memorial masonry environments.

Matt Hayes, Managing Director at Synergy will give a presentation and answer questions on this important subject in the seminar room at 1.00pm on the 4th September.
